## Experience

**CARNEGIE MELLON UNIVERSITY**

*Research Assistant, Mentors: Olga Russakovsky, Abhinav Gupta*

Ongoing research on test time supervision offered by visual question answering as opposed to standard computer vision paradigms like image segmentation and object detection.

**Pittsburgh, PA**

*May 2016 - Present*

**CERN**

*Openlab Intern, Mentors: Valentin Kuznetsov, Tony Wildish, Manuel Martin Marquez, Antonio Romero Marin*

**Geneva, Switzerland**

*June 2015 - August 2015*

Used Apache Spark to streamline different predictive prototypes by gathering information from CMS, ran predictive models and proposed datasets which will become popular over time. Evaluated quality of individual models, performed component analysis and selected best predictive model for new set of data.
